name and standing she has acquired INSIDE A.

The Waterworks system here may certainly be accounted as fine. But the city don't own it. When the people let spine it about five years ago, they laid life foundation for a great and over-whelming discontent in the future. From the concensus of opinion I glean that already this is being made manifest through experience of the past, and all the properties of the past, and all the properties of the past, and all the properties of the past, and an agnificent water supply, and the water is of the best. The greater portion, if not all the pipe lines, are of wrought from and capable of standing great pressure, as has been demanstrated time and again. But they find that for all this they pay a goodly sum, as witness the following rates:

Five room house \$8.60 per year, and \$5.50 ts additional for every room.

what do you suppose the hotel company pay for water yearly? Aside from any such extras as enumerated above, it pays the royal sun of \$200 per annum-10 per cent off for cash. Should salt Lake ever he worked up to the pitch of raising money by sale of its magnificent waterworks, it would do well to cut out these plain figures and make of them an alphabet teaching great future prosperity, and set off liberally with common sense and good judgment. There can be no mistaking it. It may be that some time in the future Ogden corporation will acquire possession of Mat she unwisely let go, and if so, but were afterward who might desire to make a bid for purchase, would do well to do the encase themselves in bullet proof and in the future state. Ogden. Aug. II.—This has been a busy day, comparatively speaking, for the Junction City. The farmers were in even from the far outlying districts, and the business streets were lined with whicles of all descriptions. They were both buying and selling, and made business lively the entire day. Clerks were busy, merchants were smilling, and the honest agriculturalists and their families drove home satisfied. Many of the latter, whom I conversed with, believed that the tide has turned, and with the coming of statehood and settlement of the tariff "Iffah will be found all right."

DULL TIMES ADVERTISING.

The best business lever is advertising, newspaper advertising is the longest lever and the quickest to move trade. **Dull Times**

Are the times to put forth the greatest effort and the most money. People don't usually ask

What they have already. Advertising Is merely ASKING FOR TRADE.

When the store is full every day, cut down your space. Don't expect that you will get a big trade in dull times, but keep count and you'll find that the advertising was profitable. Profitable

Right at the time and enormously profita-ble after a while. The very fact that only a few merchants are wise enough to advertise in dull seasons, makes it all the more profitable for those who do. You are there when others are not. It gives you greater prominence. It will make your advertising in busy times much more

Effective. Common sense has a great deal to do with advertising. Think about it from a Common-sense

Standpoint. It may take some "nerve" to pay out money for newap per space when the business isn't paying expenses but It Will Pay.

More than half the business houses in the country would be ahead if they could shut up for three months in the summer. But they don't do it. Why? Simply because they can't afford to. Peo-ple would forget them. Same way with advertising. Think of it.

And we will send you

the Semi-WeeklyHer-

ald for Six Months.
